CUSTOM AND HISTORIC MOULDING

AppWood Custom supplies a complete line of moulding and millwork used in a variety of applications. With our extensive range of moulding patterns to choose from, stocked in most any wood species, you are certain to find a package of profiles that will turn a house into a home. All products can be made to your dimension and specifications. If you can't find the profile you're looking for in the catalog on our website, we can custom make virtually any profile to your specified thickness and width in our manufacturing facility.
